

# PRODUCT DATA SHEET

## DM200C Moisture meter for concrete

### Features:

DM200 Concrete water testing instrument adopted the high frequency principle based on the introduction of the most advanced technology from foreign country.

In other words, there is a fixed frequency inside the equipment. Once the moisture of the detected objects carried, the frequency through the sensor will be different. The difference between the frequencies will be displayed in figure after the conversion by current-frequency converter.

### Features:

- Display: 4 digital LCD
- Measuring range 0%-50%
- Resolution: 0.1
- Accuracy:  $\pm 0.5\%$
- Operating conditions:
  - Temperature: 0-60
  - Humidity: 5%-90%
- Power supply: 9V battery (6F22)
- Dimensions: 160mm x 60mm x 25mm
- Weight: 203g (not including batteries)

Cement floor inspection

Marble Inspection

Flooring Inspection

Gypsum Board Inspection

Tile Inspection

Wall Inspection
